

# Conrail's Lake Shore Line Volume 3

**\$24.95**

Visit Conrail's high-density main between Erie, PA and Dunkirk, NY. This program was filmed in October of 1998 against a backdrop of blue sky and Lake Erie water and gorgeous fall colors.

Since Norfolk-Southern's Buffalo to Bellevue line parallels the Conrail line and in many cases is just a short distance from each other, we have taken the liberty of enclosing NS footage also.

Foreign power is seen in abundance and includes power from the Wisconsin Central, UP, CSX, BN, and others.

Full color and stereo sound with on-screen graphics depicting train symbols, origins, destinations, and scene locations. No narration. 74 minutes in length including previews.

Cover Photo: David P. Oroszi
